Beontag Viking beacons

Identify, sense and locate

*Robust BLE technology for
harsh industrial environments*

With more than a decade of expertise in industrial wireless identification, Beontag Viking series is a modular, industrial-grade beacon family powered by industry leading low-power Bluetooth Low Energy chipset.

The Viking beacons are proven and ready for active monitoring and precise tracking across a wide range of applications.

Long-life battery

Extra durable structure

Easy fixing options for deployments

Customizable branding and encoding

Seamless and secure NFC configuration

(only for Slim, Tough and Classic)

Viking Micro

Small size to fit smaller assets
-20°C to +60°C, IP68

Viking Micro+

Small size to fit smaller assets
-20°C to +60°C, IP68,
high vibration and shocks resistance

Viking Hybrid

Non-replaceable 1000mAh coin cell
-20°C to +60°C, built-in
temperature sensor IP68

Viking Slim

Replaceable 1000mAh coin cell
-20°C to +60°C, built-in
accelerometer, IP64

Viking Tough

1900mAh battery, -40°C to +85°C
IP69K, Built-in accelerometer,
DO-160

Viking Classic

2000mAh battery, -20°C to +60°C,
built-in accelerometer, IP68

Perfect for

Indoor

- Material flow
- Asset and equipment tracking
- Forklift movement monitoring
- Position beaconing

Outdoor

- Shipping containers
- Laydown yards
- Heavy equipment identification

Real-time Location (RTLs)

- Optimize space, inventory and people
- Laydown yards
- Equipment localisation

Tested and certified:

Supports integration with:

Wirepas

Quuppa

Eddystone

iBeacon

Enabling the future.
